

ADVOCACY IN ACTION

Women Working With Women Quarterly Newsletter!

The first quarter of 2025 has been an incredible whirlwind for us at 3W, filled with growth, resilience, and some pretty epic wins for the LBQT community. Buckle up as we take you through everything we've been up to (spoiler: it's a lot).

A FRESH START WITH TEAM BUILDING

We kicked off the year in style, escaping the hustle for a much-needed team retreat. Think of it as the calm before the storm—time to recharge, bond, and gear up for a year packed with advocacy and action. Let's just say, we earned that downtime.

CHAMPIONS RISING: NEW COHORT, BIG IMPACT

Our new cohort of Safe Abortion Champions hit the ground running! These trailblazers have been unstoppable—leading community-level conversations, spearheading webinars on the Global Day of Action to Destigmatize Abortion, and smashing stigma left and right. The ripple effects of their work have been nothing short of amazing. Our champions? Absolute legends.

AMPLIFYING LBQT VOICES AT CSW

This quarter, we made waves at the CSW Annual Forum in New York, ensuring LBQT voices were loud, proud, and impossible to ignore. Advocating for gender equality on a global stage? Check. Representing the marginalized? Double check. Together, we're shaping conversations that matter for our community.

SAFE ABORTION, REAL IMPACT

Our online campaign was nothing short of impactful, putting queer voices front and center in the safe abortion discourse. Curious? Check out our YouTube page (@3WKenya) to see the content we shared and join the conversation. Spoiler alert: we're already cooking up exciting new projects to close those gaps in understanding.

Three LBQT individuals received comprehensive abortion care this quarter thanks to our campaign efforts. Our COBAST team is going above and beyond—challenging stigma on social media and in real-life conversations. They're tackling tough topics head-on, and honestly? We couldn't be prouder.

ADVOCACY IN THE DIGITAL AGE

With new challenges (hello, Trump's executive orders), we've doubled down on curating our online advocacy. Yes, it feels like a gag on freedom of expression, but if resilience were a sport, 3W would take gold. We're adapting, innovating, and making sure our message of justice and equality reaches every corner of the internet.

SHINING MOMENTS: WOMEN'S MONTH AWARD

Excuse us while we gush—our Communications and Advocacy Lead bagged a major award for championing gender equality! This well-deserved recognition highlights the tireless work that goes into amplifying marginalized voices. We're beaming with pride.

INTERNATIONAL WOMENS DAY.

We marked International Women's Day with a small but mighty effort to accelerate action for women and girls—because if change were a marathon, we're sprinting towards the finish line. From bold conversations on gender equality to highlighting the power of inclusion, we showed that every step counts, even the small ones.

Women Working with Women

Issue No. 1/025

Quarterly Newsletter

Looking Ahead:

As we step into April, we're shedding light on the inequalities LGBTQ persons face in accessing justice. This drives us to do more, to fight harder, and to amplify the voices of our community even louder. Stay tuned—because the best is yet to come.

Thank you for standing with us in our journey to create change. Together, we act. United, we change.

With pride and determination,
Women Working with Women
